BETHANY
Serving Since 1934
FIRE DEPT.

April 1st, 2015

In the spring of 2014 the Bethany Volunteer Ambulance Corps identified the need for supplemental daytime staffing. After researching available staffing options Emergency Resource Management was chosen to assist us with staffing.

Since October 2014, Emergency Resource Management has been providing supplemental EMS personnel for the Bethany Ambulance Corps. ERM's staff are well trained, professional, and work very well with our volunteer members. Besides providing EMS coverage they assist with providing great care in maintaining our fire stations, EMS equipment and EMS vehicles.

ERM's management staff are personable and pay particular attention to detail. They made the integration of supplement EMS staff into our volunteer service seamlessly. In addition, they have been very quick to respond to any changes or concerns our corps has had.

It is without hesitation that I may recommend Emergency Resource Management as an Emergency Medical Services staffing agency. Please feel free to contact me with any questions at 203-393-2799 or at bvfd1934@gmail.com

Sincerely,

Michael Sullivan

Captain

Bethany Ambulance Corps
