In October 2013, the Plymouth Volunteer Ambulance Corps began using ERM for supplemental staffing. We have been extremely happy with the service they have provided. Their staff is well trained, conscientious, and works well with each other and our staff. They also take great care in maintaining our facility, equipment and vehicles.

ERM's management staff has also been a pleasure to work with. They are extremely attentive to any concerns we have, and do an excellent job supervising their staff. Furthermore they go above and beyond to meet our staffing needs.

Without hesitation I would recommend ERM as a staffing solution. Please feel free to contact me with questions.
